COMMUNITY BULLETIN

INVERURIE COMMUNITY CAMPUS | April 2019

Since the issue of our newsletter in January, we have continued making positive progress on the project and are happy to report the completion date remains on schedule.

Building works

As we move into spring we have been focused on progressing the roofing and external façade. Internally the form and function of the spaces is now clearly established and the internal fit-out works to the different learning centres has started.

Progress remains positive on both the Community Facilities wing and the St Andrews School building, with the envelope works well progressed and internal fit out underway.

Workforce

This season, our workforce will increase to 180 colleagues as the project gathers momentum. Materials deliveries to the site will increase over the period, however in association with our supply chain, we will ensure any increase in vehicle movement is diligently managed to minimise disruption to our neighbours.

Expected finish date: Early 2020

Project value: £55 million

Trade route graduation

Strathburn Primary

Inverurie Academy

Since the beginning of the year, the trade route group (S4/S5 pupils) has been involved in building a hut alongside a variety of different trades including bricklaying, joinery and roofing. They have also had the opportunity to gain some hands-on work experience building the new Community Campus. The programme concluded in March with a graduation ceremony on site to thank the pupils for their active involvement and enthusiasm.

Primary schools

We have been busy this quarter delivering a variety of construction activities and careers talks to the P4-P7 pupils at Strathburn Primary. Next term will be even busier with visits to Kellands Primary, Logie Durno Primary and a return to Strathburn Primary. We will also be welcoming our Robertson Reporters (two pupils from the Inverurie Academy cluster schools) back for their third visit in May to see the progress up close.

Work placements

To date, we have facilitated 17 work placements through a variety of organisations including Inverurie Academy, universities, employability groups and the DWP (job centre). Kirsty, one of our more recent placements, joined us from University of Glasgow where she is studying towards an MSc in Quantity Surveying.

Site Visits

The Inverurie Rotary Club was one of the most recent groups to visit the site. The group received a presentation on the project progress to date followed by a site tour. Next on site will be the Inverurie Academy pupils involved in our Robertson Reporters programme.

Inverurie Rotary Club visit

We have registered with the Considerate Constructors Scheme, and you will see signage displayed around our site perimeter. The aim of the scheme is to improve the image of construction; ensuring we minimise negative impact and integrate into the community during our time here. We will be inspected during the duration of the project and scored on the following criteria: Care about Appearance; Respect the Community; Protect the Environment; Secure everyone's Safety; and Value their Workforce

"I think gaining on site experience is the most beneficial way of learning about the day to day activities of both tasks and risks that arise during a project's duration." – *Kirsty Skilling*
